

COASTLINE ENTRY DOOR

COASTLINE ENTRY DOOR

Marvin Coastline, previously known as SIW, combines a beautiful aesthetic, design flexibility, and a rigorous impact performance to help fulfill even the most ambitious visions for coastal homes. Coastline all aluminum windows and doors are available in expansive sizes allowing you to leverage stunning panoramic views. Available in select southeast coastal regions, Coastline products withstand high winds and flying debris generated by hurricanes and tropical storms and meet the most stringent hurricane impact code requirements in the State of Florida including Miami-Dade County.

FEATURES

- Thick-walled aluminum frame fitted with hurricane resistant glass protects against flying debris
- Heights up to 12 feet and widths over 4 feet for a single panel and over 8 feet for double doors
- Inswing and outswing doors available
- Solid and louvered style panels
- Several hardware styles, colors, and finishes to choose from
- Multi-point locking system adds an extra layer of security
- Eleven colors and wood grain finishes available
- Custom color possibilities provide exceptional design flexibility
- Impact glass provides more noise reduction than standard glass
- Lead and melted glass offered
- Energy saving Low-E glass coatings, tinting, and insulated glass options

AN ARCHITECTURAL STATEMENT

The Coastline Entry door is highly customizable and can be configured to create a stunning architectural statement piece customized with leaded glass and adorned with a one-of-a-kind ornamental wrought iron grill.

IMPACT RESISTANT GLASS

Coastline products feature impact resistant glass that is designed to protect your home against damage caused by hurricane force winds. If your home is ever threatened by a severe storm or hurricane, you can rest easy knowing that even your largest Coastline window or door will provide unsurpassed protection.
